SUMMARY

Results-driven data analyst with a Master's in Learning Sciences and Technologies. Proficient in SQL, Python, and MS Power BI, specializing in comprehensive research, data analysis, and compelling visualization. Recognized for an analytical mindset and dedication to delivering actionable insights for informed decision-making. Eager to leverage advanced skills in data analysis and visualization to drive organizational growth.

TECHNICAL SKILLS

- SQL
- Python
- MS Excel
- Matplotlib
- MS PowerBI
- Tableau
- HTML5
- CSS3
- JavaScript

SOFT SKILLS

- Communication
- Problem-solving
- Project management
- Teamwork

WORK EXPERIENCE

Analytical Researcher, Institute for Information Industry (*July 2022 – August 2022) Internship*

- Summarized findings from cutting-edge research in Federated Learning, contributing to periodic reports.
- Developed an initial model using PyTorch and the MNIST database, demonstrating the practical application of theoretical knowledge.

Associate Analyst, National Tsing Hua University (*September 2021 – January 2022) Part-time*

- Improved data accessibility by creating an interactive MS Power BI dashboard for research, resulting in 20% increased data utilisation.
- Conducted surveys and questionnaire coding, enhancing data quality and analysis.

Project Specialist, National Chiao Tung University (*September 2017 – March 2021) Full-time*

- Managed an online course platform used by 100+ colleges, acknowledged by 250+ medical institutions.
- Conducted data analysis leading to monthly reports, aiding data-driven decision-making.
- Provided exceptional customer service to around 45 users daily and delivered 5+ educational lectures annually to increase engagement and outreach.

EDUCATION

Master of Arts, Learning Sciences and Technologies, National Tsing Hua University (*June 2023)*
Thesis: *The Restaurant Recommendation System Based on Text Mining and Visualization Techniques of Google Reviews*

LICENSES & CERTIFICATION

- **Python for Everybody Specialization** -University of Michigan (2023)
- **Web Design for Everybody: Basics of Web Development & Coding Specialization** -University of Michigan (2023)
- **Google Data Analytics Specialization** -Google (2021)
- **Data Science: Foundations using R Specialization** -The Johns Hopkins University (2021)

5 Courses

Programming for Everybody (Getting Started with Python)

Python Data Structures

Using Python to Access Web Data

Using Databases with Python

Capstone: Retrieving, Processing, and Visualizing Data with Python

Nov 22, 2023

YU MIN LIAO

has successfully completed the online, non-credit Specialization

Python for Everybody

This Specialization builds on the success of the Python for Everybody course and will introduce fundamental programming concepts including data structures, networked application program interfaces, and databases, using the Python programming language. In the Capstone Project, you'll use the technologies learned throughout the Specialization to design and create your own applications for data retrieval, processing, and visualization.

Charles Severance
Clinical Associate Professor, School of Information
University of Michigan

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

5 Courses

Introduction to HTML5

Introduction to CSS3

Interactivity with JavaScript

Advanced Styling with Responsive Design

Web Design for Everybody Capstone

Dec 20, 2023

YU MIN LIAO

has successfully completed the online, non-credit Specialization

Web Design for Everybody: Basics of Web Development & Coding

This Specialization covers how to write syntactically correct HTML5 and CSS3, and how to create interactive web experiences with JavaScript. Mastering this range of technologies will allow you to develop high quality web sites that, work seamlessly on mobile, tablet, and large screen browsers accessible. During the capstone you will develop a professional-quality web portfolio demonstrating your growth as a web developer and your knowledge of accessible web design. This will include your ability to design and implement a responsive site that utilizes tools to create a site that is accessible to a wide audience, including those with visual, audial, physical, and cognitive impairments.

Colleen van Lent

Colleen van Lent, Ph.D.
Lecturer
School of Information,
University of Michigan

8 Courses

Foundations: Data, Data, Everywhere

Ask Questions to Make Data-Driven Decisions

Prepare Data for Exploration

Process Data from Dirty to Clean

Analyze Data to Answer Questions

Share Data Through the Art of Visualization

Data Analysis with R Programming

Google Data Analytics Capstone: Complete a Case Study

Jul 7, 2021

YU MIN LIAO

has successfully completed the online, non-credit Professional Certificate

Google Data Analytics

Those who earn the Google Data Analytics Professional Certificate have completed eight courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in Data Analytics. They are competent in tools and platforms including spreadsheets, SQL, Tableau, and R. They know how to prepare, process, analyze, and share data for thoughtful action.

Amanda Brophy
Global Director of Google Career Certificates

5 Courses

The Data Scientist's Toolbox

R Programming

Getting and Cleaning Data

Exploratory Data Analysis

Reproducible Research

Oct 15, 2021

YU MIN LIAO

has successfully completed the online, non-credit Specialization

Data Science: Foundations using R

The Data Science Specialization covers foundational concepts and tools for the data science pipeline. Successful participants learn how to use the tools of the trade, think analytically about complex problems, manage large data sets, create visualizations, and publish reproducible analyses. This certificate does not confer academic credit toward a degree or official status at the Johns Hopkins University.

Jeff Leek, PhD; Roger Peng, PhD; Brian Caffo, PhD
Department of Biostatistics
Johns Hopkins Bloomberg School of Public Health
